Welshpool flash flooding closes hospital birth centre

Our approach

- **Access:** We want the entire ~100,000 NHS Wales workforce to have access to appropriate climate, health and biodiversity education and resources.
- **Engagement:** We aim for at least **10,000 staff** actively engaging with these resources.
- **Action:** And for **at least 1,000 staff** to commit to climate-positive behaviours and actions.

Call to action

Listen

To people of Wales

Make climate and nature-smart health visible, strategic, and embedded in all risk registers, workforce plans, and estates decisions.

Learn

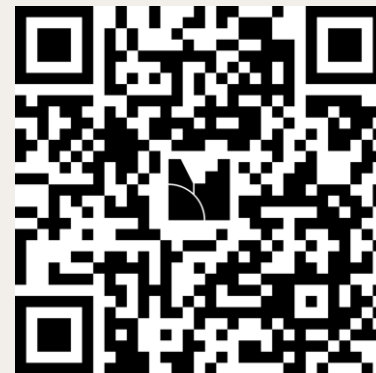

Engage with a learning resource yourself

Commit to **10%** of your workforce being climate-aware by this time next year.

Lead

By example by making a climate action PLEDGE today
